

Graphic Design | Embroidery Digitizing

Creative imagination is our power by applying ultra-modern technologies. Customer satisfaction is aligns highest priority.

SERVICES EXPERIENCE

Embroidery Digitizing

- align art services is in the business of custom digitization since 2008 is the one of the oldest provider of top quality, flawless running designs. With the team of 17 digitizers, we are rendering services to 17+ clients all over the world.
- Embroidery Digitizing/Punching is an art which turns into perfection with experience and skills.
- Different types of Software are used for digitizing like Wilcom, Pulse etc. Each of this software has its own style, function. But at the end these are the skills and experience of the embroidery digitizer, which turns the design into top quality with minimum stitches, fewer thread breaks, top sew out and less production time.

Vector Art Conversion

- We have been doing raster to vector image conversions for more than 10 years now. Our designers have the skills, speed, and proficiency for accurate raster to vector conversions with deep detailings. Our aim to provide the best possible vector art services to our clients at affordable prices.
- We offer you very best competitive market rates in vector artwork services.
- A team of inhouse artists who will clean your art, redraw it to the best quality possible. They also produce hi-resolution vector artwork from low-resolution jpegs, bitmaps, and other raster art files and in the limited time line.
